TITAN SERIES

KUDOS

Kudos Audio is one of the fastest growing high-performance loudspeaker brands in the UK. Deliberately daring to move beyond the traditional rulebook, Kudos takes an uncommon approach to loudspeaker design.

Daring we may be, but the Kudos approach is firmly rooted in three key principles: expertise, engineering and emotion. From the outset, we have focused on a clear goal: to explore how world-class expertise in audio design and engineering can realise not merely outstanding sound quality, but ground-breaking musical quality.

The kind that inspires toe-tapping, soul-stirring, spine-tingling, heart-rending, emotion.

The Kudos team combines its own considerable know-how in audio design and live sound engineering with the skills of several leading European suppliers to create unique, bespoke components and solutions. Every single Kudos loudspeaker is then hand-built, in England.

A Kudos loudspeaker is therefore a genuine original.

And your emotional experience? One of a kind.

THE KUDOS DIFFERENCE

A Kudos loudspeaker is created not just for music, but by music. Every step of the design process involves hundreds of hours of research, development and testing using a particularly fine technical instrument: the human ear. Why? Because the thrill of a sublime musical performance requires much more than measured sound quality.

EXCEPTIONAL, CUSTOM-MADE DRIVERS

Our unique drivers are custom designed in collaboration with leading experts, SEAS. Within each individual Titan loudspeaker the drivers are precisely matched and aligned to work seamlessly, as one. Together, they convey an effortless 'just right' sound. When you hear it, you know it.

ISOBARIC WITH FIXED BOUNDARY LOADING

Bass plays a powerful role in how we hear music, which is why the Titan design goes above and beyond in delivering superior sound at the all-important lower end. Our isobaric and fixed boundary loading are key to a more agile, nuanced, textured and detailed bass reproduction.

ACTIVE CONFIGURATION (UPGRADEABLE)

The Titan range is configured to allow simple by-passing of the internal crossover for active operation with leading electronics including Linn Exakt, Devialet Expert and Exposure VXN. Active operation opens up a wider upgrade path and enables a variety of performance and personalisation enhancing capabilities.

LOW-ORDER CROSSOVER AND MINIMAL DESIGN FOR A PURER SOUND

The purer the signal, the truer the sound. The Titan design preserves a clean and clear audio signal by favouring a minimal design with our trademark, low-order crossover. Superb quality components (Mundorf, Clarity Caps) are tailored specifically for Kudos to stringent tolerances.

INTERIOR DESIGN

The best designs are a marriage of form and function. The Titans' modernist elegance blends effortlessly into the contemporary home. Concealed within is a complex system of differential panel resonance control, which masterfully curbs vibrations without disturbing the natural dynamics of your music.

^

Each Kudos loudspeaker goes through multiple stages of sanding to ensure every panel is completely smooth and free of imperfections, ready to be assembled by hand.

MEET THE TITANS

The Kudos Audio Titan series offers a flagship-quality loudspeaker for a range of listening spaces, system types and budgets. Initially launching with the top-of-range Titan 808, the series has since grown to include four models in a choice of sizes and formats, standmount and floorstanding. Each model features an impressive complement of technologies that is unique to the Titan series.

TITAN 505

Small on size, big on immersion. If it's everyday elation you're after, the 505 offers all of the key Titan design features in a compact, standmount loudspeaker.

SPECIFICATION

Type	2-way, isobaric bass reflex, standmount
Recommended amplifier power	25W – 250W
Sensitivity	87dB / @ 1 W / 1 m
Nominal impedance	6 ohms
Frequency range	40Hz – 30kHz AIRR (average in-room response)
Tweeter	SEAS-Kudos K3 29mm fabric dome
Mid/bass driver	2 x SEAS-Kudos 180mm unit with double coated paper cone, 39mm voice coil with copper shorting ring and aluminium phase plug
Dimensions (HxWxD)	450mm x 256mm x 320mm
Weight (per loudspeaker)	18 kg

TITAN 606

You're serious about your music and ready to invest in soul-stirring sound. The Titan 606 will add a subtle touch of modernist class to your room while conjuring up the commanding soundstage you crave.

SPECIFICATION

Type	2-way, isobaric bass reflex, floorstander
Recommended amplifier power	25W – 250W
Sensitivity	84dB / @ 1 W / 1 m
Nominal impedance	8 ohms
Frequency range	30Hz – 30 kHz AIRR (average in-room response)
Tweeter	SEAS-Kudos K3 29mm fabric dome
Mid/bass driver	2 x SEAS-Kudos 180mm unit with coated reed paper cone, 39mm voice coil with copper shorting ring and aluminium phase plug
Dimensions (HxWxD)	950mm x 256mm x 320mm
Weight (per loudspeaker)	35 kg

TITAN 707

There's no doubting that music means everything to you. We understand. This one's for you: flagship-level performance with a slightly lighter footprint. Who says you can't have it all?

SPECIFICATION

Type	2-way, isobaric bass reflex, floorstander
Recommended amplifier power	25W – 300W
Sensitivity	89dB / @ 1 W / 1 m
Nominal impedance	6 ohms
Frequency range	25Hz – 30 kHz AIRR (average in-room response)
Tweeter	SEAS-Kudos K3 29mm fabric dome
Mid/bass driver	2 x SEAS-Kudos 220mm double coated paper cone, 39mm voice coil with copper shorting ring and aluminium phase plug
Dimensions (HxWxD)	1,050mm x 298mm x 370mm
Weight (per loudspeaker)	50 kg

TITAN 808

The absolute pinnacle of the Kudos range, where every design 'eureka', every expert-crafted component and every meticulously honed detail come together in masterful harmony. Please, lose yourself in the pure joy of the musical moment.

SPECIFICATION

Type	2.5 way, isobaric bass reflex, floor stander
Recommended amplifier power	25W – 300W
Sensitivity	91dB / @1W / 1m
Nominal impedance	8 ohms
Frequency range	20Hz – 30kHz AIRR (average in-room response)
Tweeter	SEAS – Kudos Crescendo K3 29mm fabric dome
Mid bass driver	SEAS – Kudos 220mm Nextel coated paper cone with 39mm voice coil
Bass driver	2 x SEAS – Kudos 220mm double coated hard paper cone with 39mm voice coil
Dimensions (HxWxD)	1,168mm x 348mm x 404mm
Weight	75kg
